**Stylish Living Room Sets from
Huelsta**

no.12

An interplay of oak sand and black lacquer is the basis for the adaptability of now! no.10. There is a good chance that you will notice some envious glances from your neighbours because everything can be combined so magnificently in this system. On the other hand, there is next to no chance that you will find your own personal combination in anyone else's home.

Version:
black lacquer, oak sand,
polar white lacquer

no.12

now! no.7 introduces a new form of design. Horizontal and vertical touches dominate the look competently and decisively. The dark surfaces draw everyone's attention to their contents. Yet the impression created by the warm walnut wood is so homely that its modern look looks familiar from the very first day.

Extreme contrasts can have an extremely balanced effect. The depth of oak anthracite in combination with the brilliance of the high-gloss surfaces add much more than just the light and dark contrast to the room and perfectly highlight the geometry and the well-balanced proportions.

Version:
oak anthracite, high-gloss white

The design speaks for itself.

A perfect design needs a perfect finish. Now it's time, a versatile and beautifully finished range, offers both.

Everything fits. Not only in theory will dream designs become reality. For instance a row of angular shelves, which perfectly complement lit or closed suspended units.
